Aims and Scope

The *Journal of X-Ray Science and Technology* is an international journal designed for the diverse community (biomedical, industrial and academic) of users and developers of novel x-ray imaging techniques. The purpose of the journal is to provide clear and full coverage of new developments and applications in the field. Areas such as x-ray microlithography, x-ray astronomy and medical x-ray imaging, as well as new technologies arising from fields traditionally considered unrelated to x-rays (semiconductor processing, accelerator technology, ionizing and non-ionizing medical diagnostic and therapeutic modalities, etc.) present opportunities for research that can meet new challenges as they arise.

Submission of Papers

Authors are requested to submit their article electronically by email to jxst@ucok.edu. If not using Word, you should also send a pdf file of the entire article (replacing the hardcopy). Paper submission is also accepted. In that case authors should submit three copies of their manuscript as well as a floppy disk containing the electronic files of the paper to the Editor-in-Chief.

Subscription Information

The *Journal of X-Ray Science and Technology* (ISSN 0895-3996) will be published in 1 volume of 4 issues in 2010 (Volume 18). Institutional subscription (print and online): €453 / US\$640 (including postage and handling). Institutional subscription (online only): €415 / US\$585. Visit our website for information about individual rates and back volumes.
