

ALGORITHMIC FINANCE

CONTINUING CALL FOR PAPERS

Managing Editor

Philip Maymin

NYU-Polytechnic Institute

Deputy Managing Editor

Jayaram Muthuswamy

Kent State University

Advisory Board

Kenneth J. Arrow

Stanford University

Herman Chernoff

Harvard University

David S. Johnson

AT&T Labs Research

Leonid Levin

Boston University

Myron Scholes

Stanford University

Michael Sipser

Massachusetts Institute of
Technology

Richard Thaler

University of Chicago

Stephen Wolfram

Wolfram Research

Editorial Board

Associate Editors

Peter Bossaerts

California Institute of Technology

Emanuel Derman

Columbia University

Ming-Yang Kao

Northwestern University

Pete Kyle

University of Maryland

David Leinweber

Lawrence Berkeley National
Laboratory

Richard Lipton

Georgia Tech

Avi Silberschatz

Yale University

Robert Webb

University of Virginia

Affiliate Editors

Giovanni Barone-Adesi

University of Lugano

Bruce Lehmann

University of California, San Diego

Announcing a new journal:

Algorithmic Finance

Algorithmic Finance is both a nascent field of study and a new high-quality academic research journal that seeks to bridge computer science and finance.

It covers such applications as:

- High frequency and algorithmic trading
- Statistical arbitrage strategies
- Momentum and other algorithmic portfolio management
- Agent-based finance
- Machine learning and other aspects of computational intelligence
- Complexity and market efficiency
- Algorithmic analysis of derivatives valuation
- Applications of quantum computation to finance
- News analytics and automated textual analysis
- Behavioral finance examining the algorithms of the investors

We are continuously soliciting submissions for future issues.

All submissions will be double-blind peer reviewed and decisions will be made quickly.

We are seeking papers on the topics above, or, more generally, papers at the intersection of theoretical computer science and either theoretical or empirical finance.

Please visit our websites for more information:

www.algorithmicfinance.org

www.iospress.com

About the Journal

Open access

Online articles are freely available to all.

No submission fees

There is no cost to submit articles for review. There will also be no publication or author fee for at least the first two volumes.

Authors retain copyright

Authors may repost their versions of the papers on preprint archives or anywhere else, any time.

Enhanced content

Algorithmic Finance research continues beyond the printed word. Enhanced, interactive, computable content will accompany papers whenever possible, with possibilities including re-usable code, the data used in the paper, live calculations, and videos.

Comments

Algorithmic Finance is the first journal in the Financial Economics Network of SSRN to allow comments. Reader comments and author responses allow the discussion to continue after publication.

Archives

The journal is published by IOS Press. In addition, the journal maintains an archive on SSRN.com.
