Intelligenza Artificiale

Aims and Scope
Intelligenza Artificiale is the official journal of the Italian Association for Artificial Intelligence (AI*IA). Intelligenza Artificiale publishes rigorously reviewed articles (in English) in all areas of Artificial Intelligence, with a special attention to original contributions. It will also publish assessments of the state of the art in various areas of AI, and innovative system descriptions with appropriate evaluation. The Editor-in-Chief welcomes proposals for special issues, book reviews, conference reports and news items of interest to the AI research community. Intelligenza Artificiale is an international journal and welcomes submissions from every country.
